

SENSATIONAL SIDING

Longboard® siding is designed for contemporary residential and commercial projects. The perfect solution for achieving all of the richness and beauty of wood without the maintenance. Longboard® is available in a wide range of woodgrain and solid colour finishes and has superior resistance to weathering.

DOORS TO ADORE

Add a focal point to your home with a unique entrance door that reflects your personality. A new entry door not only boosts your home's curb appeal, but can improve energy efficiency and security. Steel slabs with wood frames, fiberglass or vinyl cladding — doors come in many finishes, colours and sizes. With Van Dolder's Custom Exteriors, your options are endless.

READY FOR RAILINGS?

Unlike hardwoods that need regular care and maintenance, Van Dolder's aluminum railings don't need to be stained, treated, painted or finished to maintain their beauty and durability. An important feature as decks are continuously exposed to the sun, wind and water. Available in 3/4 straight spindles, solid panels or glass, and four colour options; white, brown, pebble and black. Installation is available, or order and do the easy install yourself!

TRANSITIONAL SPACES

Blurring the lines between interior and exterior areas of the home provides a seamless transition between two spaces creating a continuous open room. This feature allows homeowners to enjoy relaxing views and visit with guests without the loss of interaction and sightlines. Get the best of both worlds while adding useable square footage to your home. These beautiful upgrades can increase the value of your home without increasing your energy bills.

COVER UP

A retractable canopy can tie your indoor and outdoor space together, creating a fabulous focal point. Aristocrat Awnings are available in modern, traditional and contemporary designs to work seamlessly with any home.

THIS IS WHAT ONE OF OUR CUSTOMERS HAD TO SAY...

The awning was installed promptly and at a time to accommodate me. The service men were organized, polite, and completed the installation with no mess, no fuss, and waited until I was completely satisfied with the technology. The product is sturdy, beautiful and I'm confident it will deliver many years of happy protection from the elements.
